

If I **buy** food
grown in **BC...**

**I support my
local farmers
and their
families...**

If I reuse and
repair...

**I save the land
for food not
garbage.**

If I **use less**
energy...

The animals
and plants can
breathe fresh
air.

If I share the road
with farmers and
their machinery...

The farmer
feels *respected*
in their
community.

If I **eat** my
fruits and
vegetables...

**I help keep my
family and my
community
healthy.**

If I **live** in a
smaller house...

I **save** the land
for growing
food.

If I **learn** about
agriculture...

I can make
better decisions
about my food
choices.

If I **save** water...

There is **more**
for the animals
and crops to
drink.

If I choose
a career in
agriculture...

I can help **feed**
my neighbours.
